

WHAT IS NEW IN PlanRep2 7.0.0.9?

New file PlanRep5_Codes.mdb has been introduced for taking care of some of the changes in fixed health related data like

- Plan of Action
- Adding other partners like CDC, CRS-AIDS Relief, PATH, EngenderHealth for OC budget entry.
- Allow priority area “Strengthen human resources for health management capacity for improved health services delivery” together with its interventions, etc.
- Problem in importing data from departments
- Problem in deleting objectives, targets and activities
- Problem inheriting distribution council when creating a New Year data file.

- New and modified GFS Codes have been implemented

- EDI prototype has been introduced
